ANNUAL INDEX 1965

Power Engineering

TECHNICAL PUBLISHING COMPANY, BARRINGTON, ILL.

ANNUAL INDEX 1965

Power Engineering

TECHNICAL PUBLISHING COMPANY, BARRINGTON, ILL.

SUBJECT INDEX

Note that some of the articles are cross-referenced in order to give the total scope of power field coverage represented.

ATOMICS

Most Problems at Parr Shoals Nuclear Plant Were Non-Nuclear .. Jan 49
Advanced Steam Conditions Are Justified for Nuclear Power Plants
Part I ..... Feb 48
Part II ..... Mar 59
Scotland Now Has Largest Operating Nuclear Power Station ..... Feb 55
Nuclear Plants for Water Desalting Gets Thorough Discussion at Atomic Industrial Forum ..... Mar 61
New Plant Makes 1000-ton Nuclear Vessels ..... Nov 64
PM-3A: First Nuclear Power Plant in Antarctica ..... Dec 46

DIESEL

New Diesel Engine Aims for a Bigger Share of Power Generation June 45
What Does It Cost to Operate Oil and Gas Engine Power Plants? .. Sept 46

ELECTRICAL CONVERSION

Planning to Build a 500-kv Substation? If so, Here Are Some Design Details ..... Mar 39
Choose Higher Incoming Voltage for Industrial Subs and Save Money Mar 46
Steel Plant Electric Power System Designed for Flexibility, Continuity ..... July 30
120-kv Transmission System Feeds Industrial Substation ..... July 34
New Base Speeds Erection of Substation Structures ..... Oct 51
Switching Surges Must Be Considered in Transformer-Protection Design ..... Dec 49
EHV Substation Equipment Challenges Both Designer and Manufacturer ..... Dec 58

ELECTRICAL DISTRIBUTION

Prefabricated Ladder Provides Economical Cable Support at Georgia Power Co. ..... Feb 58
Check These Fault Location Methods for Residential Underground Cables ..... Mar 52
New Distribution Substation Design Provides High Reliability and High Capacity in Minimum Space May 59
Steel Plant Electric Power System Designed for Flexibility, Continuity ..... July 30
Utility Dispatch Center Passes Storm Test with Flying Colors ..... Oct 65
Computer Program Developed to Optimize Distribution-Feeder Design Nov 60
Comparative Analysis Helps Select Reclosers for Distribution Subs.. Dec 51
What's New With Mineral-Insulated Cable? ..... Dec 64

ELECTRICAL TRANSMISSION

EHV Progress Depends on Many Variables ..... Jan 35
New Microwave System Protects PEPCO Transmission Facilities.. Feb 45
Vital Statistics of a 500-kv Line.. Mar 38
EHV-DC Submarine Cable Laid Between Denmark and Sweden .. Mar 56
New Tool Aids Transmission Planning ..... Apr 49
Telemetry Primer—Present Practices and Future Needs ..... Apr 52
EHV Lightning Arresters Must Be Designed for Severe Switching Surges ..... Apr 57
Johnsonville-Memphis TVA Line Is Completed for 500-kv Operation.. June 54
120-kv Transmission System Feeds Industrial Substation ..... July 34
500kv Tower Passes Full-Scale Tests July 36
Municipal-System Interconnection Justified by Lower Power Costs .. Aug 53
Lapp Expands to Meet Increasing EHV Insulator Market ..... Sept 65
Middle-West Utilities Slice Reserve Requirements by Interconnecting Oct 48
Konti-Skan EHV D-C Cable Goes Into Operation ..... Oct 75
Is Microwave Power System Feasible? ..... Nov 41
A Safe, Reliable Transmission Design Depends on Many Factors .. Nov 44
Switching Surges Must Be Considered in Transformer-Protection Design ..... Dec 49

ELECTRICAL UTILIZATION

Controlled Electrical Demand Saves Industrial Power Dollars ..... Jan 30
New, Lighter Induction Motors Offer Better Performance, Less Maintenance ..... Mar 65
Electrical Heating Cable Controls Temperature of Process Pipelines June 55
College Campus Will Be Total Electric ..... June 61
Equations Help Determine Largest Motors That Can Be Connected on Utility Lines ..... Sept 47

FUEL, FUEL AND ASH HANDLING; GAS HANDLING

Giant Stripping Shovel Helps Fight Rising Coal Costs ..... Mar 51
This Air-Modulated Fuel-Oil System Offers Cost and Operating Benefits Mar 57
Plant Prevents Corrosion in Coal Storage Bunkers with Concrete and Epoxy Coating ..... Apr 48
For Maximum Economy New Plant Will Burn Coal and Waste Material ..... May 66
Coal Handling Becomes a Major Factor in Power Station Design .... Aug 34
What You Should Know About Ash-Handling Systems
Part I ..... Sept 42
Part II ..... Oct 55
Part III ..... Nov 57
New Unit-Train Hopper Car Features Light Weight and Fast Turnaround ..... Sept 72
Largest Lignite-Burning Unit in This Country Nears Completion ..... Oct 59
Static Electricity Can Develop from Shearing Action on Liquids .... Nov 52
New Precipitator Layout at Keystone Helps Keep Overall Plant Cost Down ..... Nov 53

GAS TURBINES

Coal-Burning Turbine with Water Injection Can Increase Peaking Power ..... Feb 43
New Combined Cycle for Gas Turbines Offers High Efficiencies .. May 55
Here's What You Need to Know Before You Specify a Gas Turbine June 47
Reconditioned Jet Engine Provides Peak Power at Low Installed Cost Aug 48
Gas Turbine Added to Existing Steam Plant Increases Efficiency Aug 57
Gas Turbines Reduce Fuel and Power Bills in the Process Industries—Part I ..... Dec 54

HYDRO POWER

Bulb Turbines Will Harness Tides and Supply Power to French Grid May 48
Hydros Keep Pace With Rapidly Growing Power Field ..... June 46

INSTRUMENTS, COMPUTERS AND CONTROLS

Controlled Electrical Demand Saves Industrial Power Dollars ..... Jan 30
Lessons for Industrial Power Gained From Automation of Merchant Ships ..... Jan 33
New Microwave System Protects PEPCO Transmission Facilities.. Feb 45
Termination Books—An Improved Procedure for Complex Control Wiring ..... Feb 59
Check These Fault Location Methods for Residential Underground Cables ..... Mar 52
New Tool Aids Transmission Planning ..... Apr 49
Telemetry Primer—Present Practices and Future Needs ..... Apr 52
Choose the Proper Instruments and Controls for Industrial Power Plants ..... May 42
Ultrasonic Detector Finds Leaks in Condenser Tubes Quicker and Easier ..... May 62
Digital Computer Sparks Major Changes in Steam Station Controls July 37
Computer Eases Engineering Drudgery; Helps Solve Tough Problems Fast ..... Aug 40
Here's How to Plan and Install a Tubing System for Pneumatic Control ..... Sept 56
Dispatch Computer System Reduces Peaking Capacity Requirements.. Sept 58
Utility Dispatch Center Passes Storm Test with Flying Colors ..... Oct 65
Automated Power Plants Require Special Considerations for the Operators ..... Nov 48
Computer Program Developed to Optimize Distribution-Feeder Design Nov 60
What Kind of Air Dryer Do You Need for Pneumatic Control Systems? ..... Dec 44

MAINTENANCE, CONSTRUCTION AND INSTALLATION

Here's a New Shape in Water Boxes to Increase Efficiency and Reduce Erosion ..... Jan 38
Concrete Chimney Grows 475 ft in 25 Days ..... Jan 39
Here Are the Basic Ways to Control and Protect Against Corrosion .. Jan 41
Most Problems at Parr Shoals Nuclear Plant Were Non-Nuclear .. Jan 49
How Japanese Operators Maintain a U.S. Power Plant in Top Condition Jan 52
What's Happening in Lubrication of TVA Power Plants? ..... Feb 38
Here's How to Get the Best Concrete Floors in Power Stations ..... Feb 53
Termination Books—An Improved Procedure for Complex Control Wiring ..... Feb 59
Dust Collector System Installed in Record Time ..... Feb 61
Plant Prevents Corrosion in Coal Storage Bunkers with Concrete and Epoxy Coating ..... Apr 48
Ultrasonic Detector Finds Leaks in Condenser Tubes Quicker and Easier ..... May 62
Good Maintenance Keeps 25-Year-Old Turbines at Top Efficiency .... June 68
500-kv Tower Passes Full-Scale Tests July 36
Cut Downtime on Large Maintenance Jobs With Critical Path Scheduling ..... July 48
Flash Evaporator Uses Titanium to Minimize Corrosion and Erosion July 52
New Insulating Blanket for Code Pipe Weld Jobs Saves Time and Money ..... Sept 61

Improved Joining Techniques Broaden Use of Stainless-Steel Piping Oct 46
New Base Speeds Erection of Substation Structures Oct 51
A Safe, Reliable Transmission Design Depends on Many Factors Nov 44

MANAGEMENT

Controlled Electrical Demand Saves Industrial Power Dollars Jan 30
American Right of Way Association —The Men Who Clear the Way Jan 46
How Japanese Operators Maintain a U.S. Power Plant in Top Condition Jan 52
What's Happening in Lubrication of TVA Power Plants? Feb 38
Meet Lt. Col. Alfred L. Pierce—Mr. Power Engineer Feb 51
India's Power for Progress Feb 57
Giant Stripping Shovel Helps Fight Rising Coal Costs Mar 51
Finland's Utilities System Mar 63
New Trainer Simulates 200-Mw Multi-Fuel Steam Generator Apr 56
Power Industry Gets 200,000-lb/hr Package Boiler Apr 64
How Big Power Boilers Are Purchased
Part I May 45
Part II June 50
Part III July 41
Here's What You Need to Know Before You Specify a Gas Turbine June 47
Cost Breakdown of a 1050-Mw Generating Plant
Part I June 63
Part II July 45
Part III Aug 49
Part IV Sept 51
Part V Oct 68
Part VI Dec 61
Cut Downtime on Large Maintenance Jobs With Critical Path Scheduling July 48
EEI Issues Policy Statement on Research Aug 39
How to Find the Unforeseen in Competitive Bidding Aug 45
Municipal-System Interconnection Justified by Lower Power Costs Aug 53
What You Should Know About Ash-Handling Systems
Part I Sept 42
Part II Oct 55
Part III Nov 57
What Does It Cost to Operate Oil and Gas Engine Power Plants? Sept 46
For Efficient Utility Planning Weather Data Is Important Sept 63
Lapp Expands to Meet Increasing EHV Insulator Market Sept 65
How High a Stack Do You Need to Prevent Air Pollution? Sept 68
New Unit-Train Hopper Car Features Light Weight and Fast Turnaround Sept 72
Middle-West Utilities Slice Reserve Requirements by Interconnecting Oct 48
Utility Dispatch Center Passes Storm Test with Flying Colors Oct 65
Is Microwave Power System Feasible? Nov 41
Automated Power Plants Require Special Considerations for the Operators Nov 48
New Plant Makes 1000-ton Nuclear Vessels Nov 64
The Great Blackout Dec 36A
Gas Turbines Reduce Fuel and Power Bills in the Process Industries—Part I Dec 54
Compare Merits of Horizontal and Vertical Pumps Before Choosing Dec 68

MEETINGS AND CONVENTIONS

ASME Winter Annual Meeting Draws 3500 Engineers Feb 63
Nuclear Plants for Water Desalting Gets Thorough Discussion at Atomic Industrial Forum Mar 61
What Do You Know About the American Power Conference? Apr 38
Intersystem Contracts, EHV Transmission Featured at IEEE Winter Power Meeting May 68
More Efficient Utility Operations Highlight MVEA Conference June 66
The Power Industry as Seen by EEI July 54
Many Predictions for Increased Growth of Power Field Made at 27th American Power Conference July 55
Reliability, Stability and D-C Transmission Highlight Electrical Discussions at APC Aug 60
EHV Cables and Structures Highlight IEEE Power Meeting Sept 66
Water Desalination Meeting Draws Record Attendance Nov 51
National Power Conference Features Visit to Yankee Atomic Power Plant Dec 66

PIPING AND VALVES

College Goes to High Temperature Water System for New Campus May 51
Electrical Heating Cable Controls Temperature of Process Pipelines June 55
Here's How to Plan and Install a Tubing System for Pneumatic Control Sept 56
New Insulating Blanket for Code Pipe Weld Jobs Saves Time and Money Sept 61
Piping, Insulation and Valves Play a Vital Role in Power Systems Oct 40
Piping for a Supercritical Generating Station Oct 44
Improved Joining Techniques Broaden Use of Stainless-Steel Piping Oct 46
Static Electricity Can Develop from Shearing Action on Liquids Nov 52

PLANT DESCRIPTIONS

Power for a Chemical Plant Jan 47
How Japanese Operators Maintain a U.S. Power Plant in Top Condition Jan 52
Here's How Inland Steel Gets Reliable, Economical Power Mar 43
Conemaugh Steam Electric Station Planned as Twin of Keystone Plant Apr 65
New Combined Cycle for Gas Turbines Offers High Efficiencies May 55
For Maximum Economy, New Plant Will Burn Coal and Waste Material May 66
Utilities Services Are Big at Eastman Kodak June 57
Coal Handling Becomes a Major Factor in Power Station Design Aug 34
Combined District Heating and Power Unit Increases System Efficiency Aug 55
Gas Turbine Added to Existing Steam Plant Increases Efficiency Aug 57
New Jersey Public Service Takes Another Big Step to Double Its Capacity Within 10 Years Sept 69
Johnstown's Third Mine-Mouth Plant Oct 58
Largest Lignite-Burning Unit in This Country Nears Completion Oct 59

STEAM GENERATION

Here's a New Shape in Water Boxes to Increase Efficiency and Reduce Erosion Jan 38
Advanced Steam Conditions Are Justified for Nuclear Power Plants
Part I Feb 48
Part II Mar 59
Dust Collector System Installed in Record Time Feb 61
How to Limit Buildup of an Explosive Charge to Prevent Furnace Explosions Mar 48
New and More Efficient Solution to Water Side Deposits Promised by EDTA Apr 60
Power Industry Gets 200,000-lb/hr Package Boiler Apr 64
How Big Power Boilers are Purchased
Part I May 45
Part II June 50
Part III July 41
Which Condensate Treatment Is Best for High-Pressure Industrial Boilers? May 63
How High a Stack Do You Need to Prevent Air Pollution? Sept 68
New Precipitator Layout at Keystone Helps Keep Overall Plant Cost Down Nov 53

STEAM TURBINES

Here's a New Shape in Water Boxes to Increase Efficiency and Reduce Erosion Jan 38
Selecting the Right Steam Turbine Drive for Industrial Use Apr 40
How to Select Large Steam Turbogenerators June 42
Good Maintenance Keeps 25-Year-Old Turbines at Top Efficiency June 68

TRANSFORMERS

Sealed Transformer Tanks Provide Simple, Maintenance-Free Systems Sept 55
Deteriorated Transformer Cooling Coils Are Replaced with Aluminum Coils Oct 53
Switching Surges Must Be Considered in Transformer-Protection Design Dec 49

WATER PROCUREMENT & TREATMENT

New Water Conversion Processes & Techniques Are Developed and Proved at Wrightsville Beach Jan 26
Get Double Benefits From This Condensate Return System Treatment Jan 44
Nuclear Plants for Water Desalting Gets Thorough Discussion at Atomic Industrial Forum Mar 61
Guantanamo's Power-Desalination Plant Is One of the World's Largest Apr 45
New and More Efficient Solution to Water Side Deposits Promised by EDTA Apr 60
Collector Wells Give Added Water to Industry May 53
Which Condensate Treatment Is Best for High-Pressure Industrial Boilers? May 63
More Treated Fir Goes into Cooling Towers as Its Durability Is Proved June 53
Flash Evaporator Uses Titanium to Minimize Corrosion and Erosion July 52
Thin-Film Evaporator Provides High-Purity Feedwater at Low Cost Aug 42
New Ion Exchange Process Will Convert Brackish Water at Low Cost Sept 49
Experience at Rugeley Establishes Design and Use of Dry Cooling Towers Oct 62
Tailor Water Treatment to Supply and Equipment Needs Nov 36
Cooling Towers Get Bigger and Better as Water Demands Grow Dec 38
Another Water Desalination Plant Goes Into Operation Dec 42
Compare Merits of Horizontal and Vertical Pumps Before Choosing Dec 68

INDEX OF AUTHORS

A

Angland, D. W.—Northern States Power Co. Oct/48
Arena, J. R.—Sargent & Lundy Nov/44

B

Babb, Charles L.—Allis-Chalmers Mfg. Co. Dec/68
Barnes, Walter L., Jr.—Office of Saline Water, U.S. Dept of Interior Jan/26
Battuello, F. L.—General Elec. Co. ..July/37
Bladholm, E. F.—Southern California Edison Co. Nov/52
Brinkworth, T. H.—Oklahoma Gas & Elec. Co. Dec/51

C

Carey, H. D.—Southwestern Elec Power Co. Dec/58
Chamberlin, Orville—The Babcock & Wilcox Co. Sept/61
Chao, Eugene—Ebasco Services May/45; July/41
Chen, K.—Westinghouse Elec. Corp...Mar/46
Church, H. E.—Tapoco, Inc. Oct/53
Crow, Loren W. — U.S. Weather Bureau Sept/63

D and E

Derks, R. A.—Central Illinois Public Service Co. Sept/58
Eaton, J. R.—Purdue University.....Nov/41
Edwards, J. C. — The Dow Chemical Co. Jan/47
Emerick, Robert H. — Consulting Engineer Aug/45
Evans, R. H.—U.S. Bureau of Navy Yards and Docks Apr/45

F

Fegley, Lt. C. E.—U.S. Navy Bureau of Yards and Docks Dec/46
Fiehn, A. J.—Burns & Roe, Inc. .. Feb/48; Mar/59; Oct/59
Filgo, George—The Detroit Edison Co...Oct/65
Fiss, E. C.—Duke Power Co. Jan/49
Fixman, C. M.—Div. of Power Research, Office of Research & Development, Maritime Administration, U.S. Dept. of Commerce..Jan/33
Frilund, Bjarne—Stal-Laval Aug/55

G

Gall, Lt. Col. Herbert J.—U.S. Air Force July/48
Garay, Paul N.—Consulting Engineer..Mar/57
George, Homer—Consultant, June/63; July/45; Aug/49; Sept/51; Oct/68; Dec/61
Gilbert, L. F.—Combustion Engineering, Inc. Mar/48
Gilbert, Morton — Dearborn Chemical Co. Jan/44
Godfrey, Harold L.—Hawaiian Elec. Co., Inc. May/62
Gonyea, Gerald—Clarkson College of Technology June/61
Graybill, Howard W.—I-T-E Circuit Breaker Co. Mar/39
Grayson, Lauren W.—City of Glendale, Calif., Public Service Dept. Dec/44

H

Hahn, Wilfred J.—Office of Saline Water, U.S. Dept. of Interior Jan/26
Heidenreich, G. E.—Cincinnati Gas & Electric Co. Oct/51
Hemminger, Thomas E.—Commonwealth Edison Co. Nov/60
Hetherington, Richard — Rohm & Haas Co. Sept/49
Higbie, Ralph M.—Consolidated Edison Co. of New York May/59
Hiniker, T. G.—General Elec. Co.....Dec/54
Holloman, Charles J.—Lenkurt Elec. Co., Inc. Feb/45
Holstein, W H., Jr.—E. I. duPont de Nemours & Co. June/55

I and J

Ivins, V. S.—Westinghouse Elec. Corp. July/52
Johnson, Walter A.—Potomac Elec. Power Co. Feb/45
Jones, D. R. — Westinghouse Elec. Corp. Aug/57

K

Keck, J. Wylly—Florida Power & Light Co. May/45; July/41
Kelley, W. R.—Western Elec. Co. Apr/48
Kispert. Edwin G.—The Babcock & Wilcox Co. May/45; June/50
Knight, C. E. — Westinghouse Elec. Corp. June/47
Kutz, Robert — Oklahoma Gas & Elec. Co. Nov/36

L

LaMarre, Paul C.—The Detroit Edison Co. July/34
Lehmann, Joseph A.—Electro Rust-Proofing Corp. Jan/41
Lehmberg, H.—Fynsvaerket Power Co. Aug/55
Leitner, Gordon F.—Aqua-Chem, Inc. Aug/42
Lentz, D. A.—Wisconsin Power & Light Co. Sept/47
LeVesconte, L. B.—Sargent & Lundy—Jan/35
Limon, L.—Graver Water Conditioning Co. May/63
Livingstone, F. C. Feb/55; May/48
Lytle, Robert A.—The Rust Engineering Co. May/66

M

McGee, J. P.—Morgantown Coal Research Center, Bureau of Mines, U.S. Dept. of Interior Feb/43
Mathews, Robert—Kalman Floor Co...Feb/53
Maynz, Theodore—Westcott & Mapes..May/51
Merriman, W. R.—The Dow Chemical Co. Apr/60
Michelson, E. L.—Commonwealth Edison Co. Oct/48
Munson, L. J.—Tennessee Valley Authority Apr/52

N, O, and P

Neukranz, Donald W. — Westinghouse Elec. Corp. June/42
Niemann, R. A.—General Elec. Co.....Jan/30
Nunley, Dan D.—Kimberly-Clark Corp June/68
O'Neil, J. E.—Westinghouse Elec. Corp Dec/49
Pabst, L. F.—Florida Power & Light Co. Sept/56
Philipp, C. T.—The Dow Chemical Co. Apr/60
Philipp, John—Burns and Roe, Inc...Oct/59
Preston, E. H.—Leeds & Northrup Co. Sept/58

R

Rabkin, S.—Research-Cottrell, Inc.....Nov/53
Reckard, J. W.—Pico Corp. Oct/46
Rector, R. E.—Tennessee Valley Authority Feb/38
Reti, George—A. M. Kinney, Inc. ..Feb/57; May/55
Reuter, James E. — Laramore, Douglass & Popham Aug/53
Rognlien, S. L.—Foothill Elec. Corp...Feb/59

S

Sakshaug, E. C.—General Elec. Co...Apr/57
Schager, Art J.—The Cleveland Elec. Illuminating Co. Nov/48
Schoenwetter, Henry D.—Burns & Roe, Inc. Feb/48; Mar/59
Seetoo, William—The Detroit Edison Co. July/34
Smith, H. L.—Westinghouse Elec. Corp. Apr/49
Smith, Jack—Morgantown Coal Research Center, Bureau of Mines, U.S. Dept. of Interior Feb/43
Smith, J. I.—Purdue University Nov/41
Sommerfield, Earle M.—Consultant ..Sept/68
Steen-Johnson, Hall—Elliott Co.....Apr/40
Steeve, E. J. — Commonwealth Edison Co. Mar/52
Stone, Robert R.—American Right of Way Assn. Jan/46
Strimbeck, Donald C.—Morgantown Coal Research Center, Bureau of Mines, U.S. Dept. of Interior Feb/43
Swingle, T. M.—Tennessee Valley Authority Apr/52

T, U, and V

Thanos, Paul—Inland Steel Co. Mar/43
Unverzagt, P. A.—Allis-Chalmers Mfg. Co. Sept/55
Valdesalice, James B.—National Valve and Mfg. Co. Oct/44
Vath, D. E.—Gilbert Associates, Inc...Nov/53

W and Z

Weeks, W. L.—Purdue University Nov/41
Westrate, Millard C.—Commonwealth Associates Inc. Aug/40
Williams, C. H.—Rome Cable Corp. ..Feb/58
Wilson, W. B.—General Elec. Co. Dec/54
Winkelman, F. W. — The Allen-Sherman-Hoff Co., Inc..... Sept/42; Oct/55; Nov/57.
Zaleski, M. A.—General Cable Corp...Dec/64
Zobel, LCdr W. M.—U.S. Navy Bureau of Yards & Docks Dec/46
